

## **Procedure 520-40 Financial Aid Program Fundability**

**Sponsor: Student Services**

### **Purpose**

Define eligibility for funding of classes, degrees, and certificates using Financial Aid.

### **Definitions**

None

### **Procedure**

Class and program fundability are defined in Title IV regulations.

New certificate programs developed by the College must be approved by the Department of Education before financial aid funding can begin.

The College's course numbering definitions establish which courses are fundable with Title IV aid.

In cases where a course's level, content, or number are unclear, the Director of Financial Aid will alert appropriate personnel and resolve questions to determine fundability.

Courses whose numbering, content, or level cannot be determined, or that conflict with federal regulations, cannot be funded with Title IV aid.

Courses that are at a level below the high school level cannot be funded with Title IV aid.
